

Noble Houses's across the Eras:Houses that exist before, during/Minara's Era

Minara's Era (~2,632 AR)

This covers the newer noble houses, note this doesn't mean the houses were created ~2,632 it means these houses came to be somewhere between 50 AR and ~2,632 AR, etc.

These are **new additions** to the roster of noble houses. Houses from before this era still exist as well, unless explicitly stated as eradicated (or otherwise removed).
